All amounts shown are exclusive of GST.

Hi SUSTAINED ELECTRICAL & SOLAR,

You have been assigned a new work order.

- 1.1. Inspect and test affected/damaged electricals.
- 1.2. Disconnect and secure any electricals as required. Secure wiring within a junction box.
- 1.3. Test circuit and reinstate power.
- 1.4. Leave site safe, clean and tidy.
- 1.5. NOTE: if you cannot reinstate power to the home, or parts of the home, please contact us from site to advise.

Please be reminded - By accepting the work order, the contractor accepts the below:

OHS: State Occupational Health and Safety regulations and policies must be adhered to for the duration of the Subcontractors time on site. It is the Subcontractors responsibility to complete a risk assessment before commencing all the jobs and immediately reporting any high-risk hazards to Emergency Trade Services Pty Ltd prior to commencing the jobs. Where a high-risk Hazard is identified, or for any jobs exceeding \$1,000, a SWMS must be completed and supplied to Emergency Trade Services Pty Ltd PRIOR to the jobs beginning. Subcontractors are required to ensure that all safety procedures relating to the trade type are followed and hold all appropriate licenses and insurances.

SOW: It is the responsibility of the sub-contractor to advise of any discrepancies in the scope of works. Any alteration or variance to the scope of works provided must be approved by Emergency Trade Services Pty Ltd prior to works commencing. Emergency Trade Services Pty Ltd reserves the right to withhold invoice payment for any additional works completed outside of the requested scope

ALL INVOICES MUST BE SUBMITTED VIA THE LINK IN THE EMAIL

Thank you.
