Site Address:	229 Farm St, Kawana QLD 4701		
Customer Phone:	488347734		

Please scan & complete site risk assessment before proceeding with works.

Electrical	Total
Installation Of Power Point For Gate Motor	
Scope of Works: • Supply and install a weatherproof power point for the gate motor. • Supply and install new steel post and install new Power point on steel post. • Trenching under existing fence/track to run new cabling. • Connect wiring to existing power circuit.	\$658.64
All amounts shown are exclusive of GST.	

General Note	Total
Optional Extra Upgrade Safety Switches To Each Circuit	
While onsite, we identified that the current meter box has an outdated safety switch protecting multiple power circuits. This older setup increases the risk of nuisance tripping and can result in unnecessary power loss to multiple areas of your property. We strongly recommend upgrading to individual safety switches on each circuit. This upgrade will significantly improve safety, provide better fault isolation, and ensure greater reliability across your electrical system.	\$0.00
All amounts shown are exclusive of GST.	

Materials	Total
Installation Of Power Point For Gate Motor	
• Weatherproof GPO (power point) • Steel post + mounting hardware • Conduit, cabling, and cable clips • Junction box, connectors • Concrete mix or footings (for post) • Consumables (tape, sealant, screws)	\$0.00
Optional Extra Upgrade Safety Switches To Each Circuit	
• 6 x RCBOs • Busbar extensions / terminal blocks • Upgraded circuit cabling (if needed) • Cable connectors, lugs, screws, conduit ends • Consumables: Labels, insulation tape, safety lockout tags, cable ties	\$889.19
All amounts shown are exclusive of GST.

	\$1,702.61

Hi Sustaine Electrical & Solar,

You have been assigned a new work order.

Please see the **REPAIR** Purchase Order details as per attached work order. If you cannot complete this job, please don't respond by email, but could you please call us to advise so we can re-allocate – [1300 755 455](tel:1300755455).

You may also email repairs@etsaus.com.au for further clarification or concerns.

If further works are required on site that are outside of your scope, please call ETS so we can confirm to proceed or we will arrange the relevant trade if it is outside of your expertise.

On Completion of repairs please supply the following. These are required within 24 hours of work completion:

- Invoice (including breakdown of labour and material cost)
- Photos (ETS requires a minimum of 3 before and 3 after photos)
- **Customer Satisfaction Form – Site Contact Sign-Off Required**
Submission of this form, duly signed by the site contact, is a mandatory prerequisite for invoice processing and payment.

SITE CLEANLINESS: It is the Subcontractors responsibility to supply and lay drop sheet protection to floor coverings and furniture where required in preparation for repairs. Remove upon completion of works, including all work-related debris, leaving the site clean and tidy.

Please be reminded - By accepting the work order, the contractor accepts the below:

Travel fees will not be approved upon receipt of a tax invoice unless prior written approval for travel has been obtained.

OHS: State Occupational Health and Safety regulations and policies must be adhered to for the duration of the Subcontractors time on site. It is the Subcontractors responsibility to complete a risk assessment before commencing all the jobs and immediately reporting any high-risk hazards to Emergency Trade Services Pty Ltd prior to commencing the jobs. Where a high-risk Hazard is identified, or for any jobs exceeding \$1,000, a SWMS must be completed and supplied to Emergency Trade Services Pty Ltd PRIOR to the jobs beginning. Subcontractors are required to ensure that all safety procedures relating to the trade type are followed and hold all appropriate licenses and insurances.

SOW: It is the responsibility of the sub-contractor to advise of any discrepancies in the scope of works. Any alteration or variance to the scope of works provided must be approved by Emergency Trade Services Pty Ltd prior to works commencing. Emergency Trade Services Pty Ltd reserves the right to withhold invoice payment for any additional works completed outside of the requested scope

ALL INVOICES MUST BE SUBMITTED VIA THE LINK IN THE EMAIL.

Thank you.
